# Curriculum Vitae

---

Massimo Aielli is Senior Lecturer of Accounting and Control at SDA Bocconi School of Management. He is Adjunct Professor in Accounting and Control at Bocconi University.

At SDA Bocconi, he was in charge of Management Accounting courses in MBA programs (2000–2005), Custom Executive Education Programs Director for Accounting and Control department (2001–2005) and Director of the Executive Master Administration Finance Control program (EMAFC, 2008–2013). Since 2018 he has been Category Manager for training programs on Management and Control Systems. He conducted research and training projects with some important players in automotive, power generation, fashion & design, banking, pharmaceutical, telecommunication, information technology, building, chemical, energy and food industries.

His research activities focus on management and control systems, performance measurement systems, cost containment systems, planning systems and business innovation. Currently, he is developing digital cost management and the links between planning systems and business innovation.

He is the author of numerous books and articles on the subject he is working on. His works have been published in *Quaderni di Management*, *Sviluppo & Organizzazione*, *Lecco Economia* and *Italia Oggi*, among others.

Massimo earned a Degree in Business Administration from Bocconi University and an ITP (International Teachers Programme) at the Institut d'Administration Des Entreprises di Aix-En-Provence (France). He is certified as Business Innovation Manager at the GIMI (Global Innovation Management Institute) in Boston. He is married with two children and is passionate about watercolor, ballroom dancing and aerial photography with drones.
